

LEVITAS INVESTMENT STRATEGY 10

31 March 2019

Risk 10 - Ultra Speculative

(Blend reviewed in January 2017)

The Levitas Investment Solution is our preferred approach to delivering our clients risk-based investment strategies.

A risk rating of 10 on a 1-10 scale constitutes an ultra speculative attitude to investment risk, while a rating of 1 would be described as very cautious. An ultra speculative investor is willing to accept higher volatility for the chance of higher long-term returns. Your investment will fluctuate and you may get back less than you invest. The blend for Investment Strategy 10 is 100% TM Levitas A Fund.

*Asset allocation as at 31.03.2019

Asset class	Actual asset allocation	Strategic asset allocation	Variance
