Risk 4 - Cautious to Moderate

(Blend reviewed in January 2017)

The Levitas Investment Solution is our preferred approach to delivering our clients risk-based investment strategies.

A risk rating of 4 on a 1-10 scale constitutes a cautious to moderate attitude to investment risk, while a rating of 10 would be described as ultra speculative. A cautious to moderate investor prefers stable returns even if the long term returns are lower. Your investment will fluctuate and you may get back less than you invest. The blend for Investment Strategy 4 is 80% TM Levitas B Fund and 20% TM Levitas A Fund.
