

LEVITAS INVESTMENT STRATEGY 6

30 September 2018

Risk 6 - Moderate to Speculative

(Blend reviewed in January 2017)

The Levitas Investment Solution is our preferred approach to delivering our clients risk-based investment strategies.

A risk rating of 6 on a 1-10 scale constitutes a moderate to speculative attitude to investment risk, while a rating of 10 would be described as ultra speculative. Moderate to speculative investors are willing to accept more volatility for the chance of higher long-term returns. Your investment will fluctuate and you may get back less than you invest. The blend for Investment Strategy 6 is 55% TM Levitas B Fund and 45% TM Levitas A Fund.
